## Queenstown Wins First Round of Intermediate Play-off

The Queenstown Intermediate Baseball team was successful in the first round of the Alberta Amateur play-offs, defeating Lomond two games out of three, to qualify to meet Brooks in the second round of the play-offs.

The first game played Thursday in Lomond resulted in a one-sided win for Queenstown 18-2, but Lomond came back strong in the Sunday afternoon game in Queenstown, to tie the series at one all, winning behind Teskey's good pitching 9-5. Excitement was high going into the final game on Sunday evening. Jim Rubbelke effectively throttled Lomond batters and the home town boys fell on the offerings of Moranda and Hicks, coming through nicely on the long end of a 7-2 score. Joe Hough and Albert Rubbelke umpired the series in first class manner and there was very little kicking on decisions and no hard feelings throughout the games. Ab Crellin was the winning pitcher in the first game played in Lomond, but had hard luck in the Sunday game in Queenstown, when the support was not as good as it might have been. Teskey, who was batted out of the box at Lomond, was very effective in Queenstown on Sunday and held the upper hand throughout the game, spacing ten Queenstown hits nicely, while his team mates piled up the score.

Other results in Play-offs—Medicine Hat Medatels defaulted to Brooks, Staveland eliminated Calgary, Brooks, Cardston eliminated Blairmore. Next Round—Staveland vs. Cardston, Queenstown vs. Brooks, winners to play off.

First Game Thursday, July 30, At Lomond  
Teskey started on the mound

for Lomond. Ab Crellin pitched for Queenstown. It was a pitchers' battle for the first three innings, with no success on either side, but in the fourth inning Ordie Lahd was safe on an error, Mallett and Crellin hit safely, Lahd scoring. Asselstine laid down a nice bunt on a hit and run play and was safe and safe at first while Mallett was safe at home. Crellin scored before the inning ended and Queenstown had a three run lead. Queenstown batters ran wild in the next inning. McLaughlin knocked a 2 bagger to right field. Second baseman fumbled Sharpe's drive and Lahd poked out a two bagger to left field scoring the runners. Mallett flied out, but Crellin hit a 2 bagger scoring Lahd. Rubbelke tripped scoring Crellin and scored on Asselstine's sacrifice. Sol flied out to end the inning. In their half, Lomond got two scores. Crellin added another score in the 7th with a home run to deep centre. In the 8th Soli caught the fever and sent a tremendous drive over centre for another homer. Sharpe also scored on Lahd's slow roller. In the 9th Crellin was safe on an error. Rubbelke threw out at first, Asselstine struck out, then Soli knocked his second homer to centre field. Lomond loaded the bases in their half of the 9th, but Frost flied out, Matheson forced Moranda at home, and Benson struck out ending the game.

Second Game, Sunday Afternoon, Queenstown  
Teskey and Hubka were the battery for Lomond, Crellin and Rubbelke for Queenstown.

In the 2nd, Moranda walked. Root drove a grounder through short for an error. Mallett dropped Hicks high fly Moranda scoring. Crellin struck out the next three batters. In the 3rd Matheson and Frost singled, scoring on Root's hit. In Queenstown half Soli scored on Lahd's infield fly. In the 6th Crellin walked and scored on Rubbelke's single making the

## First Arrowwood Guide Company Held Successful Camp

The First Arrowwood Guide Company held a very successful eight-day camp, beginning July 24, till Saturday, August 1st. The camp was under the leadership of Mrs. Weiss, the Guide Captain, who was assisted by the Lieutenant, Margaret Richards, and the Swimming Instructors, Mary Dumka. From Flag Brook at seven in the morning until Lights Out signal at ten in the evening, every camper thoroughly enjoyed herself. It seemed as though the weather had been especially ordered from the head weatherman, for no storms of any kind spoiled the campers' fun.

Camp meals were something that everybody looked forward to, and thanks to the "special treats" from the mothers, a wide variety of dishes were served, from chicken and noodles to chocolate ice cream and cake. Both cookies and cake were in great demand for lunch before bed, and the Guides again thank the mothers for these.

A number of tests were passed during the weeks camping. The recruits, who are Shirley Taylor, Mary Weiss, Myra Lord, Freda Board, Arla Jean Larsen and Betty Anne Kemp, passed both Observation and Badminton tests for second class work. Phyllis Cochran is now a second class Guide, having finished up her Morse signalling at camp. The older girls, working for their First Class Badge, made maps of the camp and surrounding river valley and the best of these are to be put in the Guide Log Book.

Mary Dumka must be congratulated upon her success with the swimming classes, which were held during the week.

(Continued on Page Four)

## Arrowwood Ladies' Social Credit Group Has Been Organized

A large and enthusiastic crowd of ladies greeted Mrs. Gostick M.L.A., of Calgary, on Wednesday afternoon, July 29 in the Locke Hall. Mrs. Gostick had kindly consented to come and discuss and help organize a Ladies Social Credit Group here.

Mrs. Lewendon, acting as chairman, introduced the speaker. Following a suggestion Mrs. Gostick discussed Ladies Groups and Auxiliaries.

The ladies then decided to organize a Ladies Group so the meeting was thrown open for nominations. The following were elected to act as officers for the ensuing year.

Hon. Pres.—Mrs. Edith Gostick  
M.L.A. Calgary  
Hon. Pres.—Rev. Peter Dawson, Champion  
Pres.—Mrs. E. Lewendon  
Vice-Pres.—Mrs. C. G. Taylor  
Sec. Treas.—Mrs. P. H. Cole

An executive committee of three, Mesdames, Richards, Hosketh and DeWitt was elected.

Mrs. Lewendon then explained how the building had been cleaned and painted by members of the Community Club and also added a word of praise for the men who had assisted. A forty dollar fund was used to supply chairs, etc. The piano owned by the Club was moved to the hall for the Social Credit Group. The Hospital Board very kindly loaned a number of articles to be used until called for.

Mrs. Hosketh spoke very highly of the effort put forth by these ladies and men to have the building in readiness for this great cause. On a motion by Mrs. Taylor seconded by Mrs. Mason the group will meet at 2:30 p.m. the 4th Wednesday of every month and all members are urged to attend regularly. Mrs. Gostick then explained the difference between active and associate members. Associate member is to take care of non-Britishers who wish to co-operate with the government may become members on payment of usual fee, but do not have a vote until become naturalized.

An active member is one who is 100% Social Credit with no other active political affiliation.

Mrs. Gostick then explained registration and urged everyone give their full co-operation in this third step to free the people and their children from this economic slavery. A motion was carried to admit all for membership regardless of fee—so anyone not being able to pay may join at anytime.

Discussion on naming the group took place. A motion was carried to name this group the Arrowwood Ladies Social Credit Group, and from now on will be known as such.

An opportunity was then given to sign up. We are pleased to report a membership of 48.

After a motion to adjourn, a lunch was served to those present. A vote of appreciation and thanks was extended to Mrs. Gostick.

Mrs. Gostick Addressed Large Crowd at Night

Mrs. Gostick, M.L.A., addressed a meeting in Phillips Hall in the evening of July 29th. A

## NOTICE

All Bona Fide Citizens who are willing to co-operate with the Government must register at their Provincial Polling Station between Aug. 10 and 15. These dates apply to Buffalo Hill—Glen House Sunset Valley—Robt. Beacom Arrowwood—B. Lewendon

Only those who register will receive the Dividend. There will be no other opportunity to register until June 1937.

Agents, Vendors for Sale of Certificates' Stamps in Little Bow

Agents for sale of stamps to be placed on the backs of Alberta's Prosperity Certificates in Little Bow, Conjunction are: Arrowwood, J. M. Weiss; Mossleigh, Mrs. A. J. Troy; Shouldice, Mrs. A. Smith; Queenstown, A. G. Lawther; Milo, E. Bechman; Barons, A. Roberts; Carmungay, J. Minty; Champion, U. S. Alexander; Vulcan, John Hunter; Kirdkaldy, A. Maisey; Armada, W. E. Howell; Majorville, Leo Francis; Lomond, G. W. Hardy.

## Junior Baseball Team Ready to Go

The Queenstown-Arrowwood Junior Baseball team entered in the Alberta play-offs will probably be scheduled to play their first series during the first of August and their opening will be in all probability will be a team from Drumheller Valley, unless the local boys draw a bye. Medicine Hat's entry has been barred from the competition due to their failure to complete the Intermediate series with Brooks. Some of the Junior games will be played on the Arrowwood diamond and the boys are hoping for sufficient support from both towns to ensure the expenses of the games. From the long list of players registered a good line-up can be fielded. The team has splendid pitching material from which to select with Casey Norton, Ab Crellin, Leroy Richards and Jim Rubbelke on the list, while Jim Rubbelke and Casey Norton are available for catching duties. Almost all the boys on the roster have had experience in Junior baseball and should give a good account of themselves against any Junior team in the Province.

A large earnest and attentive crowd attended. A splendid outline of Prosperity Certificates, Registration, and Economics in general was given. Urging the great necessity of purchasing "Alberta Made Goods" to assist in the re-establishing of labor in our own Province. So from now on watch all your buying. Our new slogan, "Buy Alberta Made Goods." Mrs. Gostick stressed the point of people patronizing their own paper, "The Albertan" to obtain the truth.

## ARROWWOOD ITEMS

Mavis Mackie, of Namaka, is visiting with her grandparents, Mr. and Mrs. J. Mackie.

Doris McInenly, of the Buffalo Hill district, is visiting with Grace and Freda Board.

Genevieve Culp returned Monday from a holiday spent at Bentley.

For Sale—Piano, Apply Resource Office.

Found—Key for a Yale Lock, Apply Resource Office.

Miss Hazel Taylor leaves this evening for Vancouver where she will visit with relatives.

Mr. and Mrs. C. Mackie and family, of Kamuka, were Sunday visitors at the home of Mr. and Mrs. A. Phillips.

Mrs. C. L. Archambault returned home Sunday after visiting with friends in Calgary for a few days.

Mr. Michael Parr, of Calgary, a former resident of Arrowwood is visiting at the home of Mr. and Mrs. C. L. Archambault.

Annie and Carl Dumka returned last Saturday from Yorkton, Sask., where they had been visiting their brother.

Ladonna Culp, Eshelby and Adeline Beagle returned home Monday after holidaying at Rimby and Gull Lake.

Miss Patricia Coleman returned home last Thursday from Queenstown, where she had been visiting her sister Miss Marion Coleman.

The Annual District Bible School will be held in the Church of the Brethren, Arrowwood, October 6th to December 24th.

Mrs. G. T. Jones and granddaughter, Marjorie, of Gleichen, are visiting with friends and relatives in the Arrowwood district.

The W.A. of the United Church will meet at the home of Mrs. A. H. Tharbo on Thurs. Aug. 13 Mrs. Shouldice will assist.

Mr. Malcolm Taylor has resigned his position as teacher in the Griffin School to under-take duties in the school, in Mossleigh.

A number from this district attended the Social Credit picnic at Cheshamere Lake on Monday afternoon at which Premier Aberhart and Mrs. Rogers, M.L.A., were the principal speakers.

(Continued on Page Four)

## INDEPENDENCE OR NOTHING

WITH the aim to live on in service through the span of many lifetimes, to what can a newspaper bind its policy so that it may endure in strength and grow in the respect of its readers. Movements spring up like mushrooms over night and wilt in a day. Governments have their brief years of power and pass into the limbo of forgotten things. Companies and corporations wax and wane with changing policies and changing hands.

TO none of these things can a good newspaper be fettered. It is larger than all. It must have a longer view, a broader scope, a deeper inspiration. It is not a voice for the opinions of the few but a faithful echo of the great voice of the people.

It must be free, it must be independent, to grow with the upward-striving national mind and to interpret faithfully the wishes of its citizens. Independence—or nothing. Independence is a newspaper's very life. Preserve that freedom of the press and you keep a safeguard to your own liberty.

By all means form your own opinions, from unbiased news columns. Your right to say what you think, your right to criticize freely—all these rights cherished by a free people are upheld by the independent newspapers of Southern Alberta.

**The Calgary Herald**  
OVER 50 YEARS OF SERVICE

Southern Alberta's Leading Daily

## Crop Testing Plant Field Days

During the next three weeks over one hundred "Crop Testing Plant" field days will be held throughout Western Canada. Dates and points are advertised daily over the radio and in the public press. Farmers and others are cordially invited to attend the meetings to observe how this work will improve their welfare. See the nearest Seale Agent.

SEALE GRAIN COMPANY, LIMITED

## Unearthing Hidden Wealth

Almost daily new testimony of the great potentialities of hidden wealth in the form of natural gas and petroleum as well as metallic minerals of great value awaiting development in the bow valley members beneath the surface soil of the three prairie provinces, and possibly in enormous quantities, is brought to light.

Evidence of the existence of untold mineral riches from the foothills of the Rocky Mountains to the mud flats bordering the large lakes of Manitoba and from the international boundary to the Arctic circle and beyond is revealed from time to time in seepages and sparse outcroppings, in the results of geological surveys and in the findings of experts who are sounding and tapping the terrain and compiling data in increasing numbers from year to year.

In this great search for new wealth which is now going on over this vast area the advance of scientific knowledge and the play of an increasingly important role and will probably hasten the day when much of this hidden wealth will be uncovered and converted to the use of mankind for the benefit of these three provinces and their peoples.

The use of the aeroplane in the past two or three years is speeding up the work of mapping out the most likely areas and this is being followed up by trained men equipped with the most modern scientific instruments in unprecedented efforts to locate grains of gold and silver, copper and zinc and huge pools of oil and big deposits of gas and other forms of mineral riches.

Even before these modern methods of locating and wringing wealth from unseen depths were made available, concrete indications of its existence were evident in such discoveries as the Turner Valley oil and gas field in Alberta, copper and gas in Manitoba and the more recent finds of gold in the Athabasca Lake region in Saskatchewan, to mention only a few of them.

Some of these deposits have already been developed and others are being turned into production, but even in these known fields cumulative evidence points to the probability that only the surface has yet been scratched, as witness the recent discovery of the existence of oil, presumably in large quantities, at hitherto untapped depths just beyond the outskirts of the known Turner Valley field.

And outside the known and already productive fields is a vast territory which, if credence is to be given the weight of evidence and belief of scientific authorities, has perhaps even greater possibilities.

The discovery by Major Howard, Winnipeg geologist, of definite folding of sub-strata in south western Manitoba recently prompted Dorey Hager of New York, a geologist of international repute and author of standard works on field geology, to express his conviction that there is every reason to suppose that the whole of Saskatchewan, the greater part of Alberta and part of Manitoba are sitting over a vast potential oil and gas field.

Such a possibility has been suspected for some time but Mr. Hager wisely drew attention to the difficulties which must be encountered before this great wealth can be tapped with any degree of reasonable certainty and intimated that recovery of these riches is likely to entail large expenditures of capital because of the peculiar geological conformation of the country.

For example, Mr. Hager pointed out that the residents of the Lloydminster district of the Alberta-Saskatchewan boundary who were fortunate enough to strike gas in commercial quantities on the strength of their geological reports compiled in Ottawa were taking a gamble with odds of 500 to one against them and that "even where a dome or anticline is located in a known field the chances are that only one or two out of three that oil or gas will be found in commercial quantities."

The difficulties of locating hidden mineral wealth are great enough in countries where exposed outcroppings are frequent and where geological sub-strata is regular but these handicaps are multiplied a hundredfold in a territory overlain by glacial drift and where the sub-strata is subjected to frequent faults as in the prairie provinces.

All of which is to say that the search for mineral wealth in Western Canada is essentially a rich man's game and that the great need for successful prosecution of the search is available capital in considerable quantities. Those who attempt it on a shoe string are playing against great odds.

### Have Made History

Domestic Representatives Meet With Coronation Commission For First Time

For the first time in history, representatives of the dominions attended a meeting of a coronation commission. The historic meeting was held in St. James Hall, London, on July 26. The dominions' representatives were present to discuss what part the dominions will take in the coronation ceremony next May.

The prime ministers and high commissioners of the dominions were appointed by their respective governments to serve on the coronation commission. The meeting was private. Those attending representing the dominions were Stanley Bruce, and Charles Water, high commissioners in London for Australia and South Africa respectively.

### Monks Building Church

Brethren of English Community Being Helped By Students

Brethren of the Community of the Resurrection in Mirfield, England, have started to erect a modern community church in their grounds. They are being assisted by students of their college. The church is the keynote of the project, with a great nave, a sacristy with a rose window, an aisle and a crypt under the nave. There also will be galleries and chapels, and eventually a tower with a large dome.

### Not So Very Easy

The word "drought" is a reminder of the peculiarities of English pronunciation, says the Toronto Globe. The sentence, "Though the drought be thought thorough enough, it is not through," shows how difficult the language must be for foreigners.

It takes three hours for a man to tell all he knows; then he becomes interesting.

### STOP Scratching

RELIEVE itching of insect bites from the most stubborn cases. Use the famous "Itch" ointment. It is the only ointment that cures itching of insect bites, and is the only ointment that cures itching of insect bites. It is the only ointment that cures itching of insect bites. It is the only ointment that cures itching of insect bites.

Ask for D. D. D. Prescription.

## WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Ready to Go

The liver should never get too much of itself. It is the most important organ in the body. It is the liver that makes the bile which is necessary for the digestion of food. If the liver is not working properly, the bile will be deficient and the food will not be properly digested. This will result in indigestion, constipation, and other ailments. To keep the liver healthy, it is necessary to eat a diet that is rich in bile-producing foods, such as green leafy vegetables, and to avoid fatty and spicy foods. It is also necessary to exercise regularly and to get plenty of sleep.

### Peaceful Penetration

How Japan is Acquiring Huge Slice Of Chinese Territory

Chinese territory comprising an area of 154,185 square miles and a population of about 50,000,000 has passed into the hands of the Japanese government to that of Japan so quietly that it apparently slipped the notice of the world.

Hopel province alone, which is the most fertile and one of the richest provinces of China, has a population of 39,000,000 as compared with 10,000,000 in all Ethiopia. Foreign trade through its principal ports amounts to \$175,000,000 annually as compared with Ethiopia's \$10,000,000. The greatest part of Hopel's import and export business is with the United States.

Hopel has an autonomous government. It has been achieved without a shot being fired, except "by mistake" in Tangshan and without attracting much attention from the other powers.

Students were the only group which voiced any open objection to what has been going on and that movement seemingly will fall at an early date. Japan has learned a lesson how to acquire new territory without attracting "bunny-bodies" like the Lytton commission who investigated the Manchurian adventure. As soon as its position in Hopel and Chahar is consolidated there is little doubt Japan intends to see what can be done about all other Chinese provinces north of the Yellow river.

Japanese advisers at every office in the Hopel-Chahar political council and the provincial bureau and no step is taken without first consulting the little men from the island Empire.

### Distinctively British

English People Again Prove They Are Law-Abiding

The French, they tell us, are "volatile"; the Spaniards, "romantic"; the English, "law-abiding." We carry these shrewd stereotypes of thought with us. Often they are misleading. But sometimes they are well-based. Oddly, it took the attempted assassination attempt in London to bring out, in full flavor, that respect for legal-process quality which is distinctively British. In any other country in Europe the assassin would have been torn apart on the spot. What happened in London? Mr. McMahon, his assassin, was shot from his hand, was quietly taken away, with little disturbance. Edward immediately minimized the affair, thereby relieving the assassin of the capital charge of treason. The police were careful to point out that though the revolver was loaded, the uppermost bullet chamber, the one in the firing line, was empty.—New York Post.

### Giving Work To Thousands

Coronation Next Year Already Of Benefit To Unemployed

People in different parts of the Empire are already booking passages to London, and seats along the procession route for the Coronation next May.

It is estimated, says Reuter, that at least 1,500 seats will be reserved by Australians and New Zealanders. There will be hundreds of princes, rich landholders, and millionaire merchants from India.

The Coronation will find work for thousands of unemployed. Already many people in Yorkshire have been found jobs in the making of commemorative mugs and jugs.—London Daily Mail.

### Just A Slight Error

William E. Merchant, Winston-Salem, N.C., knows how it feels to be a millionaire for a day. Merchant received a dividend check from a company in which he owns a small block of stock. It was made out for \$1,000,014.05, and properly signed by all necessary officials. It should have been for \$14.50. He returned the check.

Dumped into the deepest part of the ocean (26,410 feet), situated between the Philippines and Japan, Mt. Everest would be more than 6,000 feet under water.

### Building Up Navy

Britain Will Continue To Launch More Battleships

There is no evidence that the long building plans have made the battleship obsolete as the backbone of the British navy.

That, it is understood, will be the finding of the government's "Battleship versus Bomber" committee, which will complete its report very soon. Tests have been made to ascertain the vulnerability of battleships from the air.

Battleship building will continue, and tenders will be invited for two £7,500,000 super-dreadnoughts without delay.

This will be followed at the end of the year by invitations to tender for four more.

The districts likely to be asked to build them are Barrow-in-Furness, the Clyde, the Tyne and Belfast.

The committee's views may be summed up thus:

Though the development of the plane has added a new terror to the battleship, it is unlikely that a plane would be able to score enough direct hits on a ship to sink it.

Decks are now being so heavily armored that a bomb would not penetrate far enough.

Enormous developments have been made recently in anti-aircraft guns, which can fire 1,600 shells a minute.

The number of planes for the naval arm is being increased so that air attackers may be beaten off.

### Bounty For Wolves

Increasing In Numbers And Becoming Menace In Northwest

Wolves are so numerous in the far-north and so many fur-bearing and big game animals have been slaughtered by them that the government has reintroduced a bounty on the pelts.

The Dominion government used to pay a bounty of \$30 for every wolf pelt. It was reduced to \$20 in 1932 and dropped the following year. Since then, wolves have increased in numbers throughout the north-west territories and in provinces bordering the northern timber lands to such an extent they have become a real menace.

The new regulations call for a bounty of \$5 for each pelt with the trapper keeping the skin for sale. The practice of most provinces in contrast to the old territories under which the Dominion retained the skin for sale.

### Wanted A Companion

Man Gave Odd Reason For Stealing Valuable Clock

Elmer Koch, 24, reported in a Chicago jail, where time is reckoned by days and there are no cuckoo clocks. He was charged with stealing a cuckoo clock (solid walnut, hard carved, Swiss made, three weighted, from a curiosity shop on Milwaukee avenue. "I got lonesome sitting around home all day while my wife was in the hospital. I was bored to thinking about this cuckoo clock in this store. I thought how companionable it would be, and I finally wanted it so much I went and got it." The judge said 30 days.

### New Gadget For Trucks

Perhaps this gadget will aid motorists to pass trucks more easily on the highway: a sound-absorbing device at the rear of the truck to carry the sound of an approaching car to the driver through a microphone. The Province of Quebec Safety League is going to suggest this device to truck owners.

### A Trio Of Veterans

Charles Gibbs, Edmonton, blacksmith, always wanted to be a shoe maker when he was 90 years old. He has done so. He came out of business retirement to shoe 100-year-old Joseph Hair's 30-year-old mare, Nelly.

## BIG ABEN

The PERFECT Chewing Tobacco

### Leaves Odd Will

Teacher Gave Instructions For Burial In Old Way

A will instructing that its writer be buried in the old way without silk or white cotton and with a pillow of wood shavings covered with some other white cloth has been probated in Sudbury, Ont.

The will, drawn up in 1928, was that of Charles Charbonneau, school teacher, who died in February. The order of embalming be performed and her body be dressed and placed in the casket "only by members of her own sex."

Total value of the estate was \$18,000, the majority of which was left for church purposes after setting aside an income for her brother and a sum for nieces and nephews. Her furniture was to be divided equally among those attending the funeral.

### SELECTED RECIPES

**GOLD CAKE**  
3 tablespoons butter  
½ cup sugar  
Yolks of 3 eggs  
1 teaspoon flavoring extract  
1½ cups flour  
2 teaspoons Magic Baking Powder  
½ cup milk  
Cream butter, add sugar slowly; add egg yolks which have been beaten until thick; add flavoring. Sift together flour and baking powder; add alternately, with milk to mixture. Bake in greased loaf pan in moderate oven at 375 degrees F. for 35 minutes, or in shallow pan 35 minutes. Cover with any icing desired.

### Very Likely Would

There is a story concerning a clergyman who, at dinner, had to listen to a talkative young man who had much to say on Darwin. "I can't see," bawled the young man, "what difference it would make to me if my grandfather was an ape." "No," exclaimed the clergyman, "I can't see that it would. But it must have made a great difference to your grandmother."

More than 1,000,000 pounds of American toilet soaps were imported into the Philippines in the last year.

Tarpon Springs, Fla., is the sponge capital of the world.

### Appointed Soil Specialist

Dr. Alfred Leahy of Edmonton Has Had Wide Experience

Dr. Alfred Leahy of Edmonton, Alberta, has been appointed Soil Specialist to succeed the late Sidney Barnes who had charge of soil investigations for Western Canada under the Dominion Field Husbandman Experimental Farms Branch, Dominion Department of Agriculture.

The splendid work which was done by the late Mr. Barnes on the moisture requirements of plants, soil moisture conservation, and soil drifting investigations is well-known throughout the Prairie Provinces. Dr. Leahy with his special training and experience is well qualified to carry on the investigations on Stations and Substations, as well as in the field Research Laboratory at Swift Current, Sask.

Dr. Leahy attended primary and secondary schools in Alberta, graduated with the degree of B.Sc. in Agriculture from the University of Alberta, obtained his M.Sc. from the same University, and his Ph.D. from the University of Wisconsin. For the past ten years as a member of the staff of the University of Alberta and the Research Council of Alberta, he has had wide practical experience in soil survey, soil analysis, and field experiments with fertilizers in Alberta.

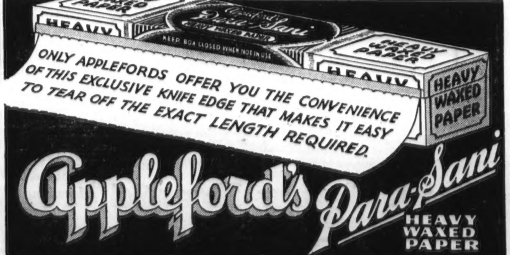

### Trifles Make Perfection

Great Italian Sculptor Knew Value Of Small Things

The great Italian sculptor, Michelangelo, was once visited on an acquaintance, who remarked on entering his studio: "Why, you have done nothing to that figure since I was here." "Yes," was the reply; "I have softened this expression, touched off that projection, and made other improvements." "Oh!" said the visitor, "those are mere trifles." "True," answered Michelangelo, "but remember that trifles make perfection; and perfection is no trifles."

Fish, we are told, tends to give a man courage. We heard the other day of a weak little boardinghouse diner speaking up and asking for another sardine on his toast.

More fur pellets are taken annually in Louisiana than in Canada and Alaska combined.

Warehouses at Calgary, Edmonton, Regina and Winnipeg

## First Arrowwood Guide Company Camp

(Continued from page 1)

Besides Guide work, the campers found great enjoyment from the campfires at night, where everyone helped make the program a success. Each evening the day's accidents and humorous happenings were read by Betty Jean Vancil, who kept the Camp Log.

A number of hikes were also taken during the week, and Friday evening the Guides hiked from their camp to Arrowwood, where they all enjoyed the motion picture, "Wagon Wheels," and a treat at Board's Ice Cream Parlor afterwards. The Guides held their own

service out of doors on Sunday morning, July 26, and it is the hope of the leaders that they will remember to do it. Be brave, Be silent, cheerfully obey, Be clean, Be strong, protect wild life always. Be true, Be reverent, play fair as they strive, Be kind, Be helpful, glad they are alive. The week's camping proved such a success that the Guides all hope for another camp next year.

## Queenstown Wins

(Continued from page 1)

score 3-2, but Lomond came back in the 7th with 2 runs. Queenstown also scored twice in the 11th on a double by Soli and singles by Thompson and Sharpe. In the 8th, Lomond rapped out 4 hits in a row scoring 3 runs and added another in the 9th on 3 hits. McLaughlin scored on Laid's single making the final score 9-5.

Third Game, Sunday Evening. Moranda pitched for Lomond and Rubbelke for Queenstown. Sharpe scored on Grollin's hit. In the 3rd Sharpe walked, Laid singled scoring Sharpe, but went out at 3rd on an attempted hit and run play. Mallett

hit a three bagger and Hicks went in to pitch. Grollin hit a 3 bagger and scored on Rubbelke's single. The inning ended 4-0 for Queenstown. Singles by Rubbelke and Stall added another run to the score. Lomond scored in the 6th on a triple by Root and single by Moranda. In the 7th Grollin scored on Rubbelke's 4th hit of the game. In the 8th Asselinge scored on a wild pitch. In the 9th Rubbelke spoiled a perfect game at bat by forcing Soli at 2nd. Lomond scored in the 9th Root singling and scoring on Frost's single.

## Softball

In a softball game between the Arrowwood girls and the Redwings last Thursday at Gleichen the local team came out victorious with a score 13-9. At the end of 1st inning the score was even but the local girls chalked up 7 runs in the 2nd inning. The local girls remained in the lead for the rest of game. Arrowwood team was especially good at batting. In the 4 games between these teams each have won two. Arrowwood—D. Brown, M. Dumka, E. Beagle, D. Hesketh, B. Vancil, V. Hesketh, E. Harp S. Ward, S. Duncan.

## Brethren Church Notes

Miss Grace Brubaker will speak at the morning service and Mr. Russell Burris in the evening.

The family tree is right enough if it produces man timber and not just plain nuts.

## CLIFFORD MANN

Harness, Shoes and Binder Canvases Repaired. Work Done Neatly and Promptly, at a reasonable price. One block east and one block north of Red and White Store

## ARROWWOOD ITEMS

Miss Vera Hesketh is in Calgary visiting with relatives.

Miss Masie Copeland of Calgary is visiting her aunt, Mrs. Ralph Leonard.

Mrs. S. Hayes entertained at tea Thursday in honor of the recent bride, Mrs. R. Leonard.

Mrs. Jane Beagle returned to her home Sunday after spending a week's holiday visiting relatives at Armada.

Mr. and Mrs. Alan Miller and family, of Calgary, were Sunday visitors with Mr. and Mrs. Hesketh.

Mr. and Mrs. F. Miller and family returned Friday from a holiday at Banff, up the Jasper Park Highway and at Sylvan Lake.

At a meeting of the local School Board last Saturday the application of Roy Sharpe was accepted to fill the vacancy caused by the resignation of Harry McCullough.

Mrs. C. G. Taylor spent Sunday with her brother in Vulcan. She was accompanied home by her daughter Miss Hazel, who had been spending a few days with relatives.

There was a splendid turnout at the open air church service held at the river Sunday night. The music by the Salvation Army Band from the Eventide Home was highly appreciated.

Mr. and Mrs. R. W. Bishop and family and Mr. W. E. Bishop, of Vancouver are visitors at the home of Dr. and Mrs. E. J. Liesemer this week. Mr. W. E. Bishop will remain here for a month.

The Barber Shop will be closed on Monday and Tuesday July 19, 1936, owing to Mr. Archibault's absence in Calgary to undergo the tests required to secure a license in accordance with the new regulations.

On Wednesday evening of last week the Arrowwood boys' softball team journeyed to Mossleigh to play a return game. After nine innings of play the Mossleigh team emerged victorious over Arrowwood for a second time, by a 9-5 score. Wilson, pitching for Arrowwood, was hit often and hard, several home runs being made by Mossleigh. Frequent errors by Arrowwood also propped the western boys.

The children's School Library has been removed to the home of J. M. Weins for the months of July and August. Miss Loretta Weins will act as Librarian, and children desiring books will be able to obtain same any afternoon or evening. Please return books, taken previously, as soon as possible.
